MENDED HEARTS

Healing After Abortion

What do 33% of American women have in common?

They share the experience of abortion and often suffer alone; in silence.

Are you one of them?

God reaches out with forgiveness and freedom; have you forgiven yourself?

Are you alone with your pain?

This study is a powerful tool God uses to set you free!

Care Net will hold a Mended Hearts Abortion Recovery Group, an 8-week Bible Study, "Forgiven and Set Free," facilitated by women who have made the same journey, who know they have been truly "forgiven and set free"— women who want the same for you.

All contact is confidential.

Please call either center to be connected to our facilitator.

Attendance is limited so call ASAP.
